

*all-season Siberian*

# *tree torch*

- natural wooden torch ( Ø approx 10-12 cm, height approx 20 cm)
- creates a cosy ambiance
- an eye-catcher for every party
- fire & light for every reason outside
- burns up without harmful residua
- easy handling
- burning time approx 1,5 - 2 hours

**Please note:**

Keep away from inflammable material.  
Don't add accelerant.  
Only burn up on fire resistant ground.  
Firing supervised by adults.

In Siberian the tree torch has been used since centuries and became more popular the last years for heat- and light-source.

Put the tree torch on a solid and inflammable ground. Light it up at the wick. After a few minutes the wood will catch fire. At the beginning there would be a formation of smoke.

Create an unforgettable ambiance in your garden. Feel the fascination of flaring flames. Your guests will be exalted.
